

Enterprise Clarity ('EC') is a boutique consultancy practising nationally since 1998 to deliver Innovation excellence, Lean, Optimisation as well as Commercialisation services and solutions.

EC is a company that has, as its foundation, the determination to facilitate the building of value for its clients. By working with people, and facilitating a culture that inspires creative thinking and innovation, we are able to contribute to outcomes that exceed the most stringent stakeholder and client requirements. Our clients objectives will be achieved through EC working closely with a representative group of stakeholders. All members of the EC team assigned to are selected, not only for their experience in managing organisations facing similar challenges, but also for their strengths in working with people and facilitating openness and a willingness to learn and successfully implement change.

The EC team has a wealth of experience in understanding and caring for the needs of organisations that strive to attain the highest levels of strategy execution and operational performance and optimisation. In our quest to deliver such, we have created specialist solutions that are contemporary and innovative. EVRIS is one such tool!
